The role of the Parents’ Association

- To facilitate, guide and provide assistance to all of the other special interest support groups within the school so that they can effectively and efficiently continue to provide specialist support for Camberwell Grammar School students in their chosen activities.
- To host major fund raising and fund raising events.
- To foster a spirit of community among the parents of the school and thereby enhance every student’s sense of belonging.

Activities of the Parents’ Association

The Parents’ Association acts and an ‘umbrella’ body for the special interest Support Groups. It also involves itself in both fund raising and social events. The Association organises “Beginning of the Year Cocktail Evenings” for various year groups, and, at various times, dinner dances, trivia nights, dinners, the school’s Open Day, and other functions. There is representation of the Parents’ Association on the School Council and there is a representative on the Victorian Parents’ Council.

Involvement is the Parents’ Association or Special Interest Support Groups.

One out of every 10 families at the school is directly involved as a volunteer to one of these groups and many, many more families are involved as a participant in one of the support group activities or programmes.

The School would welcome and appreciate your involvement and contribution.

Please register your interest by telephoning the Development Office on (03) 9835 1742
